

expert reports have been completed and received. The Respondent reported that it continues to conduct document research, which it believes it is nearly complete. The Claimant's Expert, Tara Smock, is also in an advanced stage of preparation of her report, but will likely wish to review oral history evidence and any further documents produced before delivering the report. Only at that point will the Respondent be able to decide whether a responding report will be necessary. Progress on these matters will be reviewed at the next CMC.

[2] The Parties reported that they had completed an Oral History Protocol which has been filed. The Claimant has identified 8 potential elder witnesses, who the Claimant's counsel intends to commence interviewing with a view to preparing Will-Say statements to be provided to the Respondent. The Respondent will identify its intended elder witnesses for the next CMC, where progress of Will-Say preparation will be reviewed and scheduling an oral history evidence hearing will be considered.

[3] The next CMC will be held by teleconference on **August 30, 2016** at 2:00 P.M., Eastern Time (Ottawa).
